### **Draft Metropolitan Waste and Resource Recovery Implementation Plan 2015**

Thank you for the opportunity to comment on the Draft Metropolitan Waste and Resource Recovery Implementation Plan 2015.

The Waste Management Association of Australia (WMAA) is the peak body for all stakeholders in the waste and resource recovery industry, representing over 2000 members across the Australian waste and resource recovery sector, including large business, SMEs, local and state governments, service providers, and individuals.

The draft Plan is a comprehensive road map for the infrastructure and best practice management of waste and resources in the Melbourne metropolitan area, to address the demographic and social changes over the next thirty years. The draft plan provides a good framework to achieve the Objectives as set out in section 2.1, consistent with the overall State Infrastructure Plan.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Martin Tolar', is written over a black rectangular redaction box.

Martin Tolar  
Chief Executive Officer  
Waste Management Association of Australia
